

Senior AV Systems Designer at AT&C Professional Systems Ltd

Required Start Date – September 2021

Location – London Office, Swiss Cottage, NW6

Reporting to – Technical Director/Company Director

Salary – TBC

AT&C Professional Systems Ltd are a leading Audio-Visual Systems Integrator with over 30 years' experience in the industry. We design, supply and install some of the most innovative and sophisticated audio visual, lighting and environmental control solutions for Europe's leading Hotel, Corporate, Restaurant and Retail Operators, and for some of the UK's most desirable Homes.

The Senior AV Systems Designer Role will be part of the Projects team located from our office in Swiss Cottage. The role is responsible for supporting the Sales, Pre-sales and Projects team throughout the life cycle of a project, from conception to delivery.

Key Responsibilities and Duties:

Sales/Pre-sales Support

- Assist Sales as a Consultant on projects requiring high level technical and design knowledge
- Work closely with the Pre-sales department to ensure that all designs operate as they should before hand over to the Projects team
- Work alongside the Technical Director and Company Directors on technology and the direction it is taking to future proof the business

Design standards

- Possess thorough and comprehensive knowledge of AV design and engineering
- Relevant industry experience ideally with appropriate technology qualification
- Expert in creating scalable AV CAD drawings
- Design & specify Audio Visual systems including schematic production
- Provide M&E, architectural & IT information to the professional team on the AV design
- In depth knowledge of IT & AV system design. High level of computer literacy including MS Office
- Responsible for reviewing current company design standards and implementation of new agreed methods and standards, ensuring all designers adhere to the agreed standards

Design Manager

- An irrefutable track record of producing detailed AV drawings (layouts and schematics) and working with architectural drawings. Overall responsibility for drawing production, standards and management
- Experience of Audio-Visual Design in Residential, Hospitality and Commercial Markets
- Develop the in-house design team to agreed standards for documentation and delivery
- Managing the design team on a day-to-day basis.
- Managing design workload to ensure designs are completed to company standard and delivered on time.
- Mentoring CAD operator to grow AV skills and knowledge (e.g. CTS)

Required Skills and Experience

- Personable, customer facing, smart appearance
- Confident dealing with people
- Able to work under pressure and on own initiative
- Conscientious
- Good communication skills, both verbally and in writing
- Flexible – able to assist other areas of the business and work long hours as and when required
- Able to support and mentor colleagues
- Excellent team player
